

SmartCareerAI - Project Status Report

Project Title: AI-Based Career Counseling Web App

Date: 14 July 2025

Prepared by: Project Manager - Sami Amir Rizwan

Team Size: 4 Members

Current Phase: Development (Week 2 - User Panel Focus)

Public Pages (index.php, login.php, register.php)

Status: Completed

Details:

- Added pre-loader animations and smooth scroll transitions for UI polish.
- Integrated CSS media queries for better device responsiveness.
- Included additional page: forgot-password.php for account recovery support.
- All public pages connect with backend includes (db.php, header.php, footer.php).

User Panel (dashboard.php, test.php, results.php, etc.)

Status: In Progress

Details:

- Core functionalities such as session, dashboard loading, and results are working.
- Pending Enhancements:
 - Add smooth animations on test transitions.
 - Make layout responsive via media queries.
 - Header UI improvements, including social media links.
 - Consider embedding plugin for social network integration.

SmartCareerAI - Project Status Report

Admin Panel (dashboard.php, users.php, etc.)

Status: Pending

Details:

- Development will begin after completion of User Panel components.
- Structure is in place based on diagram, but no coding started yet.

General Notes

- Folder structure validated based on SmartCareerAI system diagram.
- All includes and assets are organized correctly.
- No major issues/blockers currently.
