

SmartCareerAI - Project Status Report

Project Title: AI-Based Career Counseling Web App

Date: 22 June 2025

Prepared by: Project Manager - Sami Amir Rizwan

Team Size: 4 Members

Current Phase: Initialization (Week 1 - Setup & Resources)

Assigned Tasks Overview

Frontend Team Task

Assignment:

Gather and prepare all design-related resources including:

- Banner images
- Heading section visuals
- Backgrounds
- Icons, logos, and related UI assets

Folder to manage: /assets

Progress Status: In Progress

Details:

- Relevant images for education, career, and AI themes have been shortlisted.
- Banner design mockup is under development in Figma.
- A folder structure has been created:

/assets

/css

/js

/img

/banner/

/background/

/icons/

- Fonts and color palette ideas shared with the team for review.

SmartCareerAI - Project Status Report

Estimated Completion: 1-2 days

Backend Team Task

Assignment:

Create core backend files and connect the landing page:

- db.php - for database connection
- header.php - reusable header component
- footer.php - reusable footer component

Folder: /includes

Connection Target: Link these to index.php

Progress Status: Completed

Details:

- /includes/db.php is connected to a local MySQL test database successfully.
- Reusable components header.php and footer.php are created with basic HTML structure.
- index.php now includes:

```
include("includes/header.php");  
include("includes/db.php");  
include("includes/footer.php");
```
- All connections tested locally and verified with sample data.

Completion Date: In Progress

Next Planned Tasks

Task	Assigned
----- ----- -----	
Finalize banner and UI kit	Frontend Team
Create database schema	Backend Team
Start building test.php	Full Team

SmartCareerAI - Project Status Report

Issues / Blockers

- None reported at this stage.

Notes

- Everyone is aligned with folder structure.
- Admin panel tasks are scheduled for Week 2.
